WORDS OF WELCOME

Dear Friends!

One of the BS of BRICS's strategic aims is its Master's program development. On behalf of BS of BRICS I am proud to present our innovative program in English – Master of Business Administration. The concept and structure of the program is aimed at the training and professional development of new generation of managers and entrepreneurs with strong abilities to work in multi-cultural teams, understand the complexity of global markets and strategies, and qualified communicate in English.

This program is implemented within the framework of the established cooperation between INRTU and a number of representatives of Russian and foreign business communities.

The rich traditions of the University, highly-qualified professors and modern education environment give students a good guarantee for academic excellence, and an opportunity for outstanding professional development. MBA students will have the chance to take advantage of the many benefits that provided by the modern educational facilities that lead to distinguished outcomes.

Dmitry A. Savkin
Dean of Baikal School of BRICS,
PhD, Associate Professor

ABOUT THE PROGRAM

Dear Applicants!

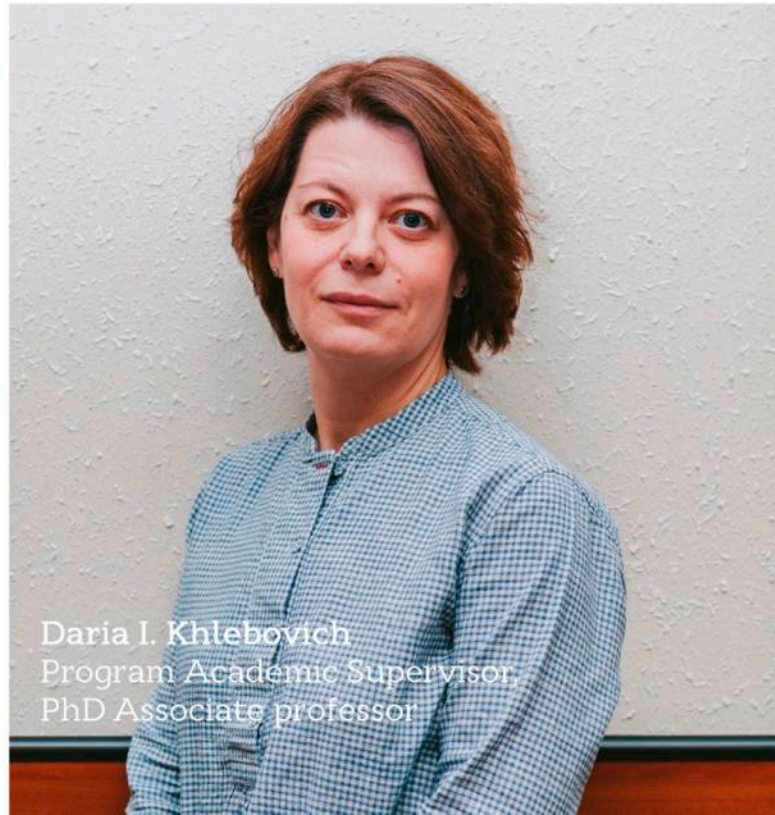

This program has been developed to enhance the intercultural vision and skills of internationally-oriented students, empower them with a good understanding of international market and corporate environment and aims, objectives, challenges of international business. The program offers not only a strong fundamental core in business studies, but also a wide range of analytical tools that are beneficial for international business.

MBA is an excellent foundation for tackling management tasks in industry and the service sector, or for realizing academic aspirations towards a doctoral thesis. Today many employers are interested in high-qualified specialists who are ready to solve the complex managerial tasks in light of best local and global practices. There is a lack of the managers who are able to lead the international projects, elaborate the programs to entry into new markets, set networks, and communicate efficiently with foreign partners.

The program's major objectives are to help students develop new visions on business operations in international markets, managerial skills free from stereotypes and limits, and build modern leadership competencies and outstanding professional development.

Our faculty have prepared modern study formats with contemporary teaching techniques, lectures and seminars content, project training and company internship. The MBA is an excellent choice for the ambitious youth aspiring to get involved in global society with high managerial competencies!

It is a real pleasure to invite you to participate in this course and study successfully.

*Daria I. Khlebovich
Program Academic Supervisor,
PhD Associate professor*
