LEARNING AND STUDENTS

Study programs

We are committed to promoting peaceful and just societies through a wide range of study programs: Information Security, Jurisprudence, Economic Security, National Security Legal Support, Information Security, Technosphere Security, Economics.

Volunteering

The university has set up a headquarters for student teams for temporary employment. Annually our students visit orphanages and animal nurseries. In 2020, university students joined the call center on issues related to preventing the spread of COVID-19.

Some of the students in major "National Security" are involved in solving issues related to the provision of psychological and consulting support to citizens.

Professional skills competition "TrudKrut"

The tournament is aimed at popularizing blue-collar occupations in modern society, fostering patriotism and an active position among the participants.

RESEARCH

The day of the Constitution of the Russian Federation

The solemn event took place within the framework of the All-Russian Student Scientific and Practical Conference "Constitutionalism and Power in Russia: History, Contemporary Problems and Prospects." The organizer of the forum is the team of the Department of Law of the INRTU.

Improving legal procedures

The jury highly appreciated the proposals of the third-year student Dmitry Snetkov, dedicated to improving the structural mechanisms of foreclosure on property in enforcement proceedings. The forum took place at the St. Petersburg Law Institute (branch) of the University of the Prosecutor's Office of the Russian Federation. The student said that he has been researching the field of compulsory execution of judicial and other jurisdictional acts for several years. As he immersed himself in the topic, he had a desire to improve legal procedures, namely, to create conditions for ensuring full and timely execution of court decisions.

PUBLIC ENGAGEMENT

Federal law initiated by INRTU will be adopted by the end of 2020

The State Duma Committee on Education and Science has supported for adoption in the first reading the draft law "On Science and State Scientific and Technical Policy", introduced by Sergei Ten and the deputies of the inter-factional working group "Baikal".

This initiative was developed in close cooperation with the research and teaching staff of our University. The legislative initiative of INRTU is aimed at improving Article 103 of the Federal Law "On Education in the Russian Federation" and Article 5 of the Federal Law "On Science and Scientific and Technical Policy".

Currently, INRTU employees are working on 14 initiatives aimed at improving the current legislation. A permanent group of law teachers has been created at INRTU, who develops drafts of legislative acts aimed at improving the legal mechanisms of educational, scientific and innovative activities of universities.
