Cars help people travel quickly and move goods everywhere. They are important for jobs, shopping, and family trips. In car maintenance, regular oil changes keep engines running well. Tire rotations ensure even wear on the tires. Brake pads need checking to stop safely. Engine tune-ups improve performance and fuel efficiency. Battery replacement is essential when the car won't start. Without cars, daily life would be much slower and harder.</p> | <p><i>OK 04, OK 02, OK 01, OK 09</i></p> |

| <i><u>Tell about your best friend, what do you like to do together? Do you quarrel? Why?</u></i><br><i><u>How do you make peace?</u></i> | My best friend is Anna, and we have known each other since school. We like to go to the cinema and eat pizza together on weekends. Sometimes we quarrel when we have different opinions about movies. This happens because one of us wants to watch a comedy, and the other prefers action films. To make peace, we talk about it and choose a film that both like. | <i>OK 04, OK 02, OK 01, OK 09</i> |
